simplifies the management

of endowed and other pooled investment funds by automating, tracking and reporting, no matter how many funds or accounts. Created for nonprofits in education, the arts, health care, community and human services, FUND DRIVER is web-based, so no additional hardware or software is required.

What are the Features?

- Configured to comply with UPMIFA
- Unlimited number of users
- Historical gift tracking
- Flexible reporting plus stewardship & audit reports
- Customized import/export to your general ledger
- User-defined reports
- 117-1, donor and financial reports
- Online instructions
- Interface & controls are detailed, yet simple & intuitive

And the Benefits?

- Improved endowment compliance
- Easy and accurate administration of spending rules
- Timely and efficient management of endowment funds
- Reduction in costly errors
- The convenience of tracking on a fund-by-fund basis
- Easier and faster than desktop versions – no servers or applications to deploy
- More security than a hosted system with shared applications
- Lower cost to implement
