

## **FULL-TIME Product Development SQL SPECIALIST POSITION AVAILABLE**

Fundriver, a fast paced, entrepreneurial technology solutions company, is looking for a full-time Product Development SQL Specialist. Looking for candidates who thrive in a collaborative virtual environment working from home. As a small, growing company, Fundriver employees participate in decisions about how the business operates and contribute directly to Fundriver's growth.

### **Job Purpose:**

The role of the Product Development SQL Specialist is to work collaboratively within the Product Development Team to support growing the platform by building business requirement documentation; reviewing, modifying, and building SQL Objects and SQL Deployment Script; building test cases and environments; and maintaining the integrity of the product always. The Product Development SQL Specialist must be able to work well within a team.

### **Main Responsibilities:**

- Work with Product Development Team to build business requirement documentation
- Design, Develop, and Test SQL objects
- Deliver high-level support to Client Experience team by fielding product development tickets, meeting deadlines, prioritizing work items, and communicating work flow
- Build SQL Deployment Script and audit deployment results
- Build and Manage each project test environment and assist both the junior developer and the user interface tester to make sure all deployments are fully tested prior to deployment

### **Qualified candidate requirements include:**

- Bachelor's degree preferred
- 1-3 years of T-SQL experience (e.g. creating queries, stored procedures, views)
- 1-3 years of Product Development experience (e.g. creating business requirements documentation, testing, and deploying SQL Code)
- Strong communication and teamwork skills with an open, friendly demeanor
- Strong time management, prioritization, multitasking and organizational skills
- Experience working independently, excellent critical thinking and troubleshooting skills
- Dedication to excellence in customer service
- Proficiency with Microsoft Office products, Zendesk experience, a plus
- Proficiency with Redgate Tools, SSRS a plus
- Some accounting experience, audit, and financial reporting standards, a plus
- Ability to work from home full time – can be located anywhere in the US
